BURNETT BROTHERS'

RELIABLE

SEEDS, BULBS AND PLANTS

We take special care that all seeds sent out by us are true to name and of the highest germinating qualities

Our Vegetable Seeds are procured from extra selected stocks and grown by the most competent gardeners in this country.

Our Flower Seeds are selected with equal care from the very best strains obtainable and have given entire satisfaction wherever grown. We have received a great many testimonials attesting to their superiority.

Our Lawn Seed Mixture is composed of the best recleaned grasses, free from weeds, thus insuring a beautiful velvety and permanent lawn. It is used on many of the large private estates throughout the country, from which we have received many testimonials.

IMPORTANT NOTICE

To Those Requiring the Services of a Superintendent, Head Gardener or Assistant.

We have at all times on our register the names of competent men who are open for such positions, and will be careful to recommend only such as would be most suitable and with first-class references.

TO GARDENERS WISHING POSITIONS

We constantly have calls for first-class gardeners, and to supply such openings we cheerfully ask those who are in want of a position to apply to us, and we will endeavor to find a suitable place for them. We positively make no charge for this service, either to employer or employee.

BURNETT BROS. give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.—B. Bros.

Burnett's Special Lawn Grass Mixture

The above mixture is made from our own formula, and composed of grasses specially adapted for the purpose of producing turf which retains its rich green color and velvety appearance throughout the entire Summer and Fall. In making up this high grade mixture we are careful to use only the very finest quality of all the most desirable dwarf evergreen, *recleaned* grasses, free from chaff and weeds, which thrive well on any soil, thus ensuring a beautiful and permanent lawn.

To obtain good results Lawn Grass Seed should be sown as soon as the ground can be prepared in early Spring. It may also be sown in the Fall with good results. One quart will sow 15×20 feet (300 square feet); 1 bushel, 100×108 feet (10,800 square feet); 4 to 5 bushels to the acre.

Price: Qt. 30c., pk. \$2.00, bushel (20 lbs.) \$7.50.

A perfect and enduring lawn, one of velvety appearance with closely interwoven, firm, deep and elastic turf, is only created by sowing a composition of the various kinds of grass seeds suited to the conditions and the climate. Several varieties are needed, that the lawn may be evergreen during all seasons and the seeds must be sown liberally (at the rate of from four to five bushels per acre), not only that a lawn may be produced quickly, but because the kinds of grasses suitable for perfect lawns are fine-leaved and should take entire possession of the ground promptly, thus checking the development of weeds, the seeds of which are in all soils. Good, rich, deeply worked soil, either of a friable texture or thoroughly drained, is as necessary for the production of a perfect lawn as for garden crops. Early and frequent mowing and rolling, as well as the liberal application of water, which should be applied in the early morning or late afternoon during dry seasons, is one of the secrets of maintaining beautiful green turf from early Spring to late Fall.

For Permanent Pasture Mixtures, Separate Grasses, Clovers, Etc., see pages 35 and 36

Burnett's "Killarney" Mixture

The above Lawn Grass Mixture "Killarney" is composed of a combination of the very finest European grasses and fescues, the highest grades possible to procure, and specially adapted for this climate. This mixture weighs 25 lbs. to the measured bushel, and is composed of all solid, recleaned seeds of the highest germination. Therefore, owners of large estates requiring a permanent sod and everlasting lawn should by all means use this high-grade mixture. We can recommend "Killarney Mixture," if the ground is properly prepared, to produce a turf of velvet, equal to the most famous Lawns in Europe. Give it a trial.

"Sow Killarney and walk on Velvet." Qt. 35c., pk. \$2.50, bushel (25 lbs.) \$9.50.

Burnett's "Bridle Path" Mixture

The above mixture is adapted for a strong, hard-wearing turf of the finest texture, and is composed of some of the hardiest grasses, which will produce a close, thick sod and stand hard usage under all conditions. For drives and walks or any place where a strong turf is necessary, this mixture cannot be equaled Qt. 25c., pk. \$1.75, bu. (20 lbs.) \$6.00.

Burnett's "Central Park" Lawn Grass

Burnett's "Central Park" Lawn Grass

Burnett's "Shady Place" Lawn Grass

Burnett's "Bank and Terrace" Lawn Grass

This well-known mixture contains a large proportion of permanent grasses that grow quickly, producing a rich, green sward in about four weeks from time of sowing. Central Park is very hardy and has always given entire satisfaction in any location wherever sown. One quart will sow 15 x 20 feet; 1 bushel, 100 x 108 feet; 4 to 5 bushels to the acre. Qt. 25c., pk. \$1.75, bush: (20 lbs.) \$6.00.

BURNETT'S "SHADY PLACE" LAWN GRASS

When a lawn is much shaded, either in whole or in part, the shaded portions should be sown with Burnett's "Shady Place" Lawn Grass Mixture, which is a combination of fine, dwarf-growing evergreen varieties, which, in their wild or natural state, are to be found growing in the woods or other sheltered or shady places. Under or in the immediate neighborhood of large trees fertilizers should be applied liberally and frequently, for the trees absorb the fertilizer and impoverish the ground. Ground much shaded is very frequently sour, and if the drainage is defective it is apt to be covered with moss. In such cases an application of lime or wood ashes raked in will sweeten the soil, but the moss should be first removed with a sharp rake. Qt. 35c., pk. \$2.50, bush. (20 lbs.) \$0.00.

BURNETT'S "BANK and TERRACE" LAWN GRASS

On sloping banks it is often necessary to use sod, as heavy rains wash the soil off before the grass seed has time to germinate. It is sometimes even necessary, in sodding very steep banks, to use pins eight or ten inches in length to pin the sods in place, to prevent them from being washed down by excessive rains before the grass roots have had time to fasten in the soil. The Terrace mixture which we offer is composed of deep-rooting grasses which, if once established, will hold the soil and prevent washing, and we advise liberal fertilizing and seeding so that the grasses may be quickly established. Qt. 35c., pk. \$2.50, bush. (20 lbs.) \$8.00.

For Permanent Pasture Mixtures, Separate Grasses, Clovers, Etc., see pages 35 and 36.

Grasses for Golf Courses, Etc.

We have made a specialty of Fine Grass Seed Mixtures for many years, suitable for Putting Greens and Fair Greens, and are direct importers of the various European grasses and handle largely the domestic varieties necessary for the formation of correct formulas to cope successfully with the many different conditions of soil, location and climate.

Many clubs have experimented with their greens until they have been successful in the combination of a mixture that gives perfect satisfaction in their particular location. In such instances we will be glad to offer the necessary grasses separate or make a mixture to the required formula.

"ELECTRIC" WORM ERADICATOR FOR PUTTING GREENS AND TENNIS COURTS

Whenever there are worms in the ground, there are worm casts on the surface, and it is impossible to Putt—accurately—if there are casts on the green.

Rolling the greens every day helps to keep down the casts, but it is a continuous performance, day after day, and it is always a case of removing the evil, instead of preventing it at its source.

"Electric" Worm Eradicator does away with the worm casts permanently, by destroying the worms themselves.

Each gallon of "Electric" Worm Eradicator may be diluted with one hundred and twenty (120) gallons of water, and when sprinkled on the green, brings the worms to the surface, where they die in a few minutes.

"Electric" Worm Eradicator has been the golfer's friend for many years.

"Westchester Pryde" Tomato

New Tomato "Westchester Pryde"

For Forcing or Outdoor Growing

In introducing this grand New Tomato we can confidently say it is one of the finest forcing varieties ever offered. The seed we offer has been saved by the grower from perfect fruit only. Westchester Pryde is a cross between Lester's Prolific and Carter's Sunrise, and is of medium size, fruit uniform and perfect in shape, color beautiful rich red, flavor delicious.

Westchester Pryde, while we claim for it to be a forcing variety, has been grown outside the past season with remarkable success, bearing 40 lbs. of fruit to the plant. Trusses from 12 to 24 to the plant and contain from 15 to 40 fruits to each truss, weighing on an average 4 fruits to a pound. We have had this variety on exhibition in our show window the past season and same was admired by all who saw it. Do not fail to grow Westchester Pryde this season.

Pkt. 25c., 5 pkts. \$1.00.

Strong pet-grown plants, Doz. 75c., 100 \$5.00.

Burnett's "Liberty" Tomato

Burnett's "Liberty" Tomato For Main Crop and Exhibition Purposes "Liberty" has No Equal

Liberty Tomato, introduced by us some years ago, still holds undisputed reputation as the best main crop and exhibition variety. Liberty was largely grown last season by many competent private gardeners and was exhibited at all the principal exhibitions, where it was awarded first prize in nearly every instance. We claim for Liberty the distinction of being the finest Tomato on the market today. Liberty is an exceedingly heavy cropper and bears abundantly until very late in the season. The fruit is of a glossy red color, large, perfectly round, uniform in shape, very solid, and meaty, of superb quality with few seeds and borne in clusters of from ten to twelve perfect fruits. All exhibitors and growers should not fail to give Liberty a trial.

Pkt. 25c., oz. \$1.00.

Strong Pot-grown Plants of Liberty ready May 1st. Doz. 75c., 100 \$5.00.

Burnett's Improved Evergreen Corn

All exhibitors should give our Novelties a trial

CAULIFLOWER

Snowball, "Burnett Selected Strain"

No other Cauliflower at the present time is so widely known as Snowball, having supplanted all other sorts for early and late planting. For forcing under glass and growing in frames for early use it has proved superior to all. Its dwarf, compact habit and short outer leaves allow it to be planted closer in the same space of ground than other varieties. Heads pure snow white of the finest quality. Our strain of Snowball we can recommended with the utmost confidence. Pkt. 25c., ¼ oz. \$2.00, oz. \$6.00.

CARROT

Paris Exhibition

This Carrot is an improved strain of the French type. The roots are small, globular in shape, fine grained and very delicate. Color bright orange: tops small. For forcing or growing in frames this variety will be found the most desirable. Pkt. 10c., oz. 35c., ½ lb. \$1.25, lb. \$4.00.

SWEET CORN

Burnett's Giant Golden

It would be difficult to convey to our many friends and patrons an accurate idea of the value of this elegant Sweet Corn. Burnett's Giant Golden is the result of crossing Golden Bantam with Late Mammoth which produces an ear larger than the former but a little smaller than the latter, the flavor of which will certainly be appreciated. For exhibition purposes this variety will be indispensable, Pt. 40c., qt. 75c., pk. \$5.00.

SWEET CORN

Burnett's Improved Evergreen

We are placing on the market this year a new strain of the well-known Stowell's Evergreen Sweet Corn. This strain has been derived by crossing the well-known Evergreen with an early variety, which produces a longer and narrower kernel with from 18 to 20 rows to the ear. The field from which this stock seed was selected yielded 175 bushels per acre, every stalk producing two ears. After careful comparison in our trials with all the leading varieties, we have found Burnett's Evergreen to be the best variety for general purposes. Pt. 40c., qt. 75c., pk. \$5.00.

SWEET CORN

Early Mayflower

This is the earliest Sweet Corn now on the market, being fully 5 days earlier than White Cob Cory. Mayflower is a ten-rowed variety, with ears pure white and very sweet. The cob is large and even in shape. Superior to all early varieties previously offered. Pt. 40c., qt. 75c., pk. \$5.00.

NEW LETTUCE (Romaine or Cos.) "Silver King"

This type of Lettuce, which is becoming more popular every year, is well worthy of consideration. The seed we offer is selected with the utmost care by one of the leading houses in Europe, who claims it to be the largest of the Romaine strain. Perfect form, self-folding, very crisp and tender, a solid heart of crystal

Pkt. 20c., ož. 50c.

Kelway's Prodigy Leek

LEEK Kelway's Prodigy

The finest variety for exhibition; very hardy and of fine flavor; this has been tried side by side with all the advertised "best" sorts, and has proved the finest of all, and in Scotland the hardiest of any; specimens have been grown weighing upwards of 4 lbs. each. All exhibitors should give Prodigy a trial.

Pk. 20c., oz. 60c., 1/4 lb. \$2.00.

Waverley Market

A grand exhibition variety with long, thick, snow white stems, Waverley Market grows to an immense size, with dark green leaves, thus differing from all other varieties. It is hardy and productive, a good keeper and of excellent flavor. Waverley Market is superior to any Leek yet offered.

Pkt. 20c., oz. 75c., 1/4 lb. \$2.50.

"Silver King" Lettuce

NEW MUSK MELON

Burnett's "Discovery"

We have purchased from one of the leading gardeners in the country the entire stock of this grand New Musk melon "Discovery."

Although a cross from Emerald Gem it is entirely distinct, of a rich flavor, finely netted; color deep salmon flesh, and just an ideal size for table use.

This Melon is excellent for forcing or outdoor planting. A trial will convince the most skeptical of its great value.

Pkt. 25c., 5 pkts. \$1.00.

Burnett's "Discovery" Musk Melon

LETTUCE Burnett's Balmoral

In recommending this grand, new, early head Lettuce, we can safely say that for forcing or outside planting it is unequaled. The heads are of medium size and very solid; outer leaves light green with golden yellow heart. It is crisp, tender, and of perfect quality. Give it a trial and prove its excellence. Pkt. 10c., oz. 25c., ½ lb. 75c.

MUSKMELON

Emerald Gem-Selected Strain

Emerald Gem has proven to be the most valuable for general use. For outside culture and for forcing under glass it has few equals. The flesh is very deep, ripening clear to the rind, of a beautiful salmon color, rich and delicious. It is very early, prolific and long bearing; fruit small, smooth skin, color deep emerald green, with light stripes. Pkt. 10c., oz. 25c., 1/4 lb. 75c., lb. \$2.50.

Burnett's "Enormous"

In introducing this new variety we have confidence that it is the best ever offered. Its enormous size and superb quality will no doubt make it a decided acquisition to the exhibitor. The skin is pale, straw-colored; flesh snow white, of firm substance and delicate flavor; an excellent cropper. Pkt. 25c., oz. \$1.00.

Burnett's "Enormous" Onion

Balmoral Lettuce

ONION

Ailsa Craig (Selected Stock)

For exhibition Ailsa Craig is universally recognized as the ideal Onion. The skin is of a pale straw color; flesh white, very mild and quality superb. The bulbs, which are oval-shaped, often attain the phenomenal size of from 3 to 4 lbs., grown exactly under same conditions necessary to the cultivation of other sorts. Pkt. 25c., oz. \$1.00, ½ lb. \$3.50.

NEW ONION

Gigantic Gibraltar

The largest Onion yet introduced; while being similar in appearance to Prizetaker, it is much lighter in color and very much larger in size. During recent tests of all large Onions, Gigantic Gibraltar was far ahead of any other variety as a weight producer. The flavor is mild and delicious and will, when properly harvested and kept in a dry, airy place, keep until Spring. Pkt. 25c., oz. \$1.00.

NEW PARSLEY

Burnett's Emerald Isle

This Parsley is of a beautiful dark green color and more densely curled than the older sorts. The plant is dwarf and very compact, making it most desirable for planting indoors, or for a neat border in the vegetable garden. Statistics received last season show that Emerald Isle, planted at the same time and under the same conditions, germinated quicker than any other variety. Pkt. 10c., oz. 30c., ½ lb. \$1.00.

"PEA LAXTONIAN"

This is the largest, best and most productive dwarf Pea ever introduced. The vines grow only 18 inches high and are of vigorous and robust growth, producing in abundance large, dark green pods averaging 4½ inches long, filled with eight to ten very large, wrinkled, deep blue-green peas of very rich flavor. Pt. 60c., qt. \$1.00, pk. \$7.50.

PEA Burnett's Extra Early Market

For early use or general planting our Extra Early Market Pea is unequaled. Being a round, hard-shelled variety it can be sown when frost is barely out of the ground, before it is safe to sow the wrinkled sorts. It grows 2½ feet high; the pods are large and well filled with round, smooth peas of delicious flavor. Pt. 45c., qt. 80c., pk. \$6.00.

PEA "Peter Pan"

"Peter Pan" has proved itself to be, without doubt, the finest and earliest dwarf Pea yet introduced. It is a tremendous cropper, producing long, dark green pods filled with peas of exquisite flavour. The plants are robust in habit, and it is now without doubt the leading dwarf early Pea. Height 1½ ft. Pt. 6oc., qt. \$1.00, pk. \$7.00.

PEPPER

Burnett's "Monarch"

The Monarch of All Peppers

An extremely large and handsome Pepper, of a bright scarlet color; flesh thick, very mild and remarkably sweet, without the least trace of fieriness. This Pepper is much larger, more uniform in shape, and superior in quality to any now on the market; an ideal variety for exhibition. Pkt. 25c., oz. \$1.00.

TOMATO

Burnett's "Red Ensign"

An Ideal New Forcing Tomato

The fruit is of rich crimson color, delicious flavor, and free from the hard core so frequently found in Tomatoes. Red Ensign is one of the earliest and most prolific, the fruit hanging in broad, handsome sprays, of medium size, not too large or too small and remarkably even.

We can thoroughly recommend Red Ensign as the best for forcing purposes, possessing all the good points that a Tomato should have. Pkt. 25c.

MUSKMELON

One ounce will plant 75 hills.

Muskmelons thrive best in a light, rich soil. Plant early in May, when the ground has become warm and dry, in hills 6 feet apart each way. The hills should be do about two feet square, 18 inches deep, and half filled with rotted manure. Sow 6 to 12 seeds to a hill. When up, and all danger of insects has passed, pull out all but 3 plants. Cultivate until the vines cover the ground; pinch the ends of the growing shoots to induce early fruiting. A few hills for early use may be had by sowing the seed out-of-doors under hand frames.

PEAS

One quart will plant about 100 feet of drill.

Peas do best in a light, rich soil; for private use sow in double rows 6 to 8 inches apart, the rows 2 to 4 feet apart, the tall ones requiring brush. Commence sowing the extra early varieties as soon as the ground can be worked in March; continue for a succession every two weeks until June. A good crop can be secured by sowing the extra early sorts in August for Fall use. The wrinkled varieties are not as hardy as the small round sorts, and if planted early should have a dry soil, or they are liable to rot in the ground; they are, however, the sweetest and best flavored.

BURNETT BROS.' GRASS SEED MIXTURES

FOR HAY, MEADOWS AND PERMANENT PASTURES

Our Permanent Pasture, Hay and Meadow Mixtures are composed of varieties of grasses best adapted for producing an abundant and nutritious food supply for stock. Our formulas are arranged with great care and the mixtures are made to suit the exact location and condition of soil, etc., for which they are needed.

Nothing but the best recleaned seeds are used, consequently it does not take so large a quantity per acre as that generally used when poor quality mixtures are sown.

We recommend three bushels to one acre, which may be sown either in the Spring or Fall, with an additional ten pounds of Mixed Clovers sown early in the Spring. When ordering please state whether for high, dry, medium, wet or heavy soil.

GIANT SPENCER SWEET PEAS

"Burnett's Magnificent Selection"

- **AFTERGLOW.** A splendid new variety, beautifully waved and fine color, violet reddish mauve; very attractive. Pkt. 15c., oz. 60c.
- APPLE BLOSSOM SPENCER. A reproduction of the old Apple Blossom Sweet Pea, but of the true Spencer type. Petals waved and crinkled. Pkt. 10c., oz. 50c.
- ASTA OHN SPENCER. Color lavender, tinted mauve, the best lavender in the Spencers. Pkt. 10c., oz. 50c.
- AURORA SPENCER. Both standard and wings are waved. The ground color of the flower is cream white, flaked and mottled with rich orange salmon. Pkt. 10c., oz. 50c.
- CAPTAIN OF THE BLUES SPENCER. Larger than Countess Spencer, of perfect form; standard purple, wings bright blue. Pkt. 10c., oz. 40c.
- CHARM (Burpee's). As the name implies, this novelty is indeed a "charming" variety of delicate and exquisite color. It was awarded a Certificate of Merit by the American Sweet Pea Society in 1911. The flowers are of fair size and most of the strong, stiff stems bear four flowers each. Of the finest Spencer type, they are throughout a glistening pure snow white, suffused equally through standard and wings with delicate flesh or blush pink. Pkt. 25c., oz. \$1.00.
- CHERRY RIPE. The color of this splendid variety is a brilliant cerise self; beautifully waved and a profuse bloomer. Pkt. 15c., oz. 60c.
- COUNTESS SPENCER. Bright clear pink, showing a little deeper at the edges. Pkt. 10c., oz. 40c.
- **DAINTY SPENCER.** A large, beautiful white, with picotee edge; perfect form, true Spencer type. Pkt. 10c., oz. 50c.
- DECORATOR (Burpee's). A true Rose du Barri Spencer. Pkt. 25c., oz. \$1.00.
- **DUPLEX SPENCER.** This beautiful cream-pink variety gives a large percentage of twin or triple standard flowers, which makes it most valuable for decorative purposes. On the sprays of four blooms each the two lower—and often the three lower—flowers are double, while on three-flower sprays

- one or two flowers are double, and all beautifully waved and frilled. The vines are extremely vigorous and free flowering, the truly gigantic flowers being borne on very long stems, both standard and wings being rich creamy pink with lemon-colored keel. A most attractive and desirable variety. Pkt. 15c., oz. 60c.
- ELFRIDA PEARSON. A delightful pink, tinged with salmon on the standard. Of fine form and very free flowering. Pkt. 25c., oz. \$1.00.
- ETTA DYKE. A magnificent white Spencer, extremely large flowers, beautifully formed; of fine substance. Pkt. 10c., oz. 50c.
- **FLORENCE NIGHTINGALE.** Flowers of immense size. Color soft, rich lavender, which is enlivened by a very faint sheen of rose pink. A self color. Pkt. 10c., oz. 50c.
- **GAIETY SPENCER.** This is an ivory white with stripes, blotches and flakes of bright, rosy crimson. The flowers are of largest size and very much waved, of finest Spencer type. A vigorous and free grower and continuous bloomer. Pkt. 10c., oz. 50c.
- GEO. HERBERT. The color is charming, standards rose, with deep, scarlet wings. The greater proportion of spikes bear four flowers. Pkt. 10c., oz. 40c.
- GEORGE STARK. This is the finest scarlet Sweet
 Pea offered. The flower is bold. The standard is
 waved and upright. A grand variety for exhibition
 and decorative purposes. Pkt. 15c., oz. 60c.
- HELEN LEWIS. Very large, bright orange-salmon flowers; usually four on a stem. Pkt. 10c., oz. 50c.
- IRISH BELLE, or DREAM. An entirely new shade, lovely rich lilae, flushed with pink, of finest Spencer type, waved in both standard and wings; very large flowers and long stems. Pkt. 15c., oz. 75c.
- JUANITA SPENCER. Large-waved, white flowers striped and flaked delicately with lavender. Pkt. 15c., oz. 60c.
- **KING EDWARD SPENCER.** This is the nearest approach in color to the popular King Edward VII. The enormous flowers come almost uniformly waved and crinkled. Pkt. 10c., oz. 50c.
- MARGARET MADISON. A splendid new variety of fine Spencer form; the color is a clear azure blue self. A most desirable variety. Pkt. 25c., oz. \$1.00,

Gaiety Spencer (See page 41)

SWEET PEAS—Continued

MARIE CORELLI. True Spencer form. The wings are a rich rose carmine, while the standard shows a tint of cherry red. The effect is that of a brilliant crimson, clear, distinct and beautiful. The standard is large, round and wavy. The wings are full and remain outright instead of drooping. Pkt. 15c., oz. 75c.

MARTHA WASHINGTON. A beautiful new Spencer Sweet Pea; color pearl white, lightly flushed with pink, which deepens as it nears the edge of petals. The standard and wings are colored alike. Pkt.

10c., oz. 50c.

MASTERPIECE. Color rich lavender, of Spencer type; flowers very large, well waved; remarkably free flowering. Award of Merit, N. S. P. S., 1910. Pkt. 15c., oz. 60c.

MAY CAMPBELL. A most charming and uniquely marked novelty. The ground color throughout is cream, the standard being beautifully marbled in the center with soft carmine which is still deeper on the back of the standard. The wings are pure cream, slightly veined with carmine. The flowers are very large, well waved and frilled, usually borne in fours on stems of great substance. Pkt. 25c., oz. \$1.00.

MELBA. A glorious new salmon-colored self. flower of great substance and size with massive bold standard, often measuring two and a half inches in diameter, and waved in best Spencer form. Pkt. 15c., oz. 75c.

MRS. HENRY BELL. Creamy yellow, suffused rosy apricot. Pkt. 15c., oz. 75c.

MRS. HUGH DICKSON. A cream-pink Spencer on buff ground, of fine form; flowers well placed on long stems. An excellent variety for exhibition, and should be in every collection. Pkt. 10c., oz. 50c.

SWEET PEAS-Continued

MRS. ROUTZAHN SPENCER. This can be described as Florence Morse Spencer on primrose ground. The blending shades are soft rose buff and primrose, with a decided rose edge. Pkt. 10c., oz. 50c.

MRS. C. W. BREADMORE. A lovely new picotee of true Spencer type. The large flowers are borne profusely three and four to a stem, and are distinctly pink edged on a cream ground. Pkt. 10c., oz. 50c.

NUBIAN. A new maroon or deep chocolate-colored self of great merit. The flowers are of truly giant proportions, beautifully waved, and of great stance; the standard is broad and spreading and the wings well placed. Usually four flowers on a stem. Pkt. 15c., oz. 75c.

OTHELLO SPENCER. The best of the dark varieties, being very large and of the finest type. It is a deep maroon and of particularly rich, velvety effect. Pkt. 10c., oz. 50c.

PEARL GRAY SPENCER. This beautiful variety may be described as a lovely shade of pearl or dove gray suffused with light rose. The flowers, borne in clusters of three and four of the largest size are of true Spencer type. Pkt. 15c., oz. 75c.

PRIMROSE SPENCER. Color primrose or creamy yellow throughout both standard and wings. Pkt. 10c., oz. 50c.

RAINBOW SPENCER. A giant-flowering variety and a decided advancement in the striped section. The ground color is ivory white, flaked and lightly striped with rose. The flowers are beautifully waved and usually four to a stem. Pkt. 15c., oz. 60c.

Pearl Gray Spencer

SWEET PEAS—Continued

SENATOR SPENCER. Color deep claret and chocolate, striped and flaked on a ground of light helio-Of the true Spencer form. Pkt. 10c., trope.

SCARLET EMPEROR. The giant of all the scarlets, of true Spencer type; a very robust grower, exceedingly bright and sunproof. Generally three flowers on each stem; a fine exhibition variety. Pkt. 25c., oz. \$1.00.

SCARLET EMPRESS. A Queen Alexandra Spencer, identical in color, absolutely sunproof, much larger in flower and more vigorous in habit, producing three to four flowers to a stem. Pkt. 15c., oz. 75c.

STIRLING STENT. The richest glowing salmon self. Pkt. 15c., oz. 75c.

TENNANT SPENCER. The best of the heliotrope shades. It is self colored in most attractive rosy purple and comes entirely true. The flowers are of large size and borne gracefully on long, stiff stems. Pkt. 10c., oz. 50c.

THOMAS STEVENSON. Beautiful orange scarlet self, perfectly true, producing four flowers to a stem; a very strong grower. Pkt. 10c., oz. 50c.

VERMILION BRILLIANT. For exhibition this variety will be invaluable. The flowers are very large, bold and erect, with exceedingly long stems. The color is an intense pure scarlet and sunproof. Pkt. 25c., oz. \$1.50.

W. T. HUTCHINS. A true Spencer of perfect form and coloring. The buds show a decided buff color. When fully expanded it has the appearance of light apricot, overlaid with a beautiful blush pink. As the season advances, the blush-pink shading becomes more pronounced. Both standard and wings are wavy, ruffled and crinkled. Pkt. 10c., oz. 40c.

WHITE SPENCER. Flowers of enormous size, absolutely pure white. Pkt. 10c., oz. 50c.

MIXED GIANT SPENCER SWEET PEAS. Composed exclusively of Giant Waved Spencer varieties. Pkt. 10c., oz. 30c., ¼ lb. \$1.00.

ASTER

White Perfection

The finest midseason white Aster in cultivation. The flowers are 4 inches in diameter, exquisite in form. The plants are taller growing than the late upright Asters and extremely vigorous, carrying about twelve large, handsome flowers on long, strong stems, free from side branches. Pkt. 25c.

ASTER

Enchantress Pink (Vick's-New)

A vigorous upright grower producing a profusion of extra strong-flowering stems, carrying very large, graceful flowers, of the branching type, the color being a beautiful, delicate shade of pink which does not fade. Pkt. 25c.

Aster Violet King

ASTER

Peach Blossom

This new, large-flowering, late-branching variety is a very pleasing shade of deep lavender pink. The size and thickness of the flower give it a massive effect; the stems are very strong and hold the flowers erect at all times. Pkt. 25c.

ASTER

New Branching "Snowden"

The seed which we offer of this beautiful, pure snow-white branching Aster is the result of years of pains-taking effort and careful study by the introducer. It is one of the most perfect free-blooming white Asters offered. The flowers, when well grown, measure from 3 to 4 inches in diameter, are perfect in form and borne on extra long, stiff stems, forming a pyramid of pure white when in perfection. Pkt. 25c.

ASTERS

The Three Gems— Purity, Daybreak and Sunset

The plants of these three beautiful Asters grow about 2 feet high, are of bushy, branching habit and singularly free from disease. The flowers are borne in great profusion on long, stiff, upright stems, perfectly globeshaped, with incurved petals full to the center. In popularity this trio far excels all other varieties.

Purity. Glistening, pure white. Pkt. 10c.

Daybreak. Beautiful seashell pink. Pkt. 10c.

Sunset. Delicate light pink, shading to deep, rich pink in center. Pkt. 25c.

(Collection of 3 Varieties, 40c.)

ASTER

Elegance The Beautiful Single Aster

This new single Aster is very much admired. The plants are strong and vigorous growers, of pyramidal habit, very free blooming, and produce strikingly beautiful flowers on long, slender stems, from 2 to 3 inches in diameter; they have small yellow centers, and last for a long time when cut. The petals are broad and wavy, resembling single Japanese Chrysanthemums.

White, Lavender, Dark Blue, Deep Rose, Pearl Rose, Mixed. Each, pkt. 15c.

ASTERS

Giant Crego

These are the finest Asters for cut-flowers, growing 2 feet high, well branched, of sturdy growth. They bear immense flowers, 4 to 5 inches in diameter, resembling a Chrysanthemum.

White, Pink, Lavender, Rose, Purple. Each, pkt. 15c. Mixed, pkt. 10c.

(The above collection of 1 pkt. each color, 60c.) For Other Asters, see General List on page 52.

EMPERFLORENS MAGNIFICA. Dark bronze foliage, with bright crimson flowers; SEMPERFLORENS very striking bedding or pot plant. Pkt. 50c.

BEGONIA (Laing's)

This superb strain of double and single Begonias surpasses all other introductions. These flowers are of the most beautiful colors, suitable either for the conservatory or outdoor planting.

LAING'S GOLD MEDAL SINGLE, TU-BEROUS-ROOTED HYBRIDS. Mixed. Pkt. 50c.

LAING'S GOLD MEDAL DOUBLE, TU-BEROUS - ROOTED HYBRIDS. Mixed.

BELLIS Monstrosa

This strain of Bellis is a greatly improved and enlarged type of the popular English Daisy.

DOUBLE ROSE. Pkt. 25c., 5 pkts. \$1.00. DOUBLE WHITE. Pkt. 25c., 5 pkts. \$1.00.

CALCEOLARIA Burnett's Superb Strain

An ornamental greenhouse plant, with beautiful, pocket-like flowers; universally admired for decorating the greenhouse or conservatory. The strain we offer can be relied upon to produce flowers of the largest size and most brilliant colors. Pkt. 50c., large pkt. \$1.00.

CELOSIA Pride of Castle Gould

This Ostrich Plume Celosia is an entirely distinct type of Celosia pyramidalis plumosa and surpasses by far anything yet placed on the market for bedding or as a pot plant for decorative purposes. The colors range from blood red, carmine, golden yellow, salmon, deep scarlet, orange and wine red. Mixed. Pkt. 25c.

CINERARIA Stellata—Star-flowered

A beautiful variety with small star-shaped flowers. Very effective for conservatories or table decorations; good for cutting. Choice mixed. Pkt. 25c.

CINERARIA Hybrida Stella Nana The Cactus-flowered Cineraria

This beautiful new variety is a splendid addition to this already popular and handsome class. The habit is dwarf and compact, the petals very long, pointed and elegantly twisted, similar to the Cactus Dahlia. The colors are exceedingly rich and varied. Pkt. 50c.

Cineraria Hybrida

CINERARIA Hybrida Burnett's Exhibition Strain

Our strain of this highly prized greenhouse plant we can recommend as being superior to any other. The seed is selected with the utmost care by one of the leading growers in Europe, who has made wonderful improvements in Cinerarias within the past few years. The plants are of compact growth, with fine cut foliage; flowers perfect in form, embracing all the most beautiful and delicate shades. Mixed colors. Pkt. 50c., large pkt. \$1.00.

CHRYSANTHEMUMS Wells' New Early-flowering Single

Single Chrysanthemums are the craze at the present time, and from a single packet of seed you can get sorts equal to the best named varieties. Pkt. 25c., large pkt. 50c.

CLERODENDRON Fallax

Handsome, erect-growing greenhouse plants; large spikes of fiery scarlet bloom. Pkt. 75c.

COSMOS

LADY LENOX. Color delightful shell-pink, lighting up beautifully at night. Pkt. 10c., 1/4 oz. 75c.

LADY LENOX, WHITE. Giant flowering; pure white. Pkt. 15c., 1/4 oz. \$1.00.

COSMOS Giant "Blush Queen"

A very large-flowered and early variety of quite a new type. The height of the plant is 3 to 4 feet, and the large, graceful flowers, borne on long stems, make it an excellent variety for cutting. It is very free flowering. The color is a very beautiful blush, flaked with a rosy lilac tint, deepening toward the center. A very charming combination and most effective. Pkt. 25c., 5 pkts. \$1.00.

COSMOS New Giant Hybrids

A new and much improved strain of the early-flowering Cosmos. The flowers are larger than the old type, freer blooming and considerably earlier. Height 3 to 4 feet. The colors range from crimson, deep rose, pale rose, blush and white. Pkt. 25c., 5 pkts. \$1.00.

DIMORPHOTHECA New Selected Hybrids

Originated from the beautiful African Golden Daisy. This new class produces an almost endless variety of colors from pure white through the many shades of pink, yellow, red, etc. Splendid for cutting. Pkt. 25c.

GERBERA Jamesoni Gigantea

The flowers measure from 5 to 6 inches across; stems 3 feet; color intense scarlet. Being a perpetual bloomer, the Giant Scarlet Daisy will be found invaluable for indoor and outdoor culture. Pkt. 25c.

GERBERA Jamesoni Hybrida

These new hybrids are of great merit and contain a grand diversity of colors. Pkt. 50c.

GLOXINIA

This charming greenhouse plant produces beautiful trumpet-shaped flowers of the most exquisite and gorgeous colors. Extensively used for decorating. Extra selected mixed. Pkt. 50c.

IMPATIENS

Holstii, New Hybrids

These hybrids, like their parent, form strong, bushy plants about 2 feet high, covered with flowers in the following colors: white with center rosy white, deep purplish violet, orange, vermilion, chamois and bright carmine. When grown as pot plants they bloom the year round. Choice mixed. Pkt. 25c.

MIGNONETTE

Burnett's Conqueror (New)

Unquestionably the finest Mignonette ever introduced for greenhouse growing. It is very robust in growth and produces magnificent spikes about 12 inches in length. All seed is saved from selected greenhouse grown plants of the finest quality. Pkt. 50c., large pkt. \$1.00.

MIGNONETTE "Goliath"

This Mignonette is of dwarf compact habit, with rich green foliage. The flower trusses are red, of immense size and borne on erect, strong stems. A grand forcing variety and very fragrant. Pkt. 15c., oz. \$3.00.

MIGNONETTE New York Market—True

The seed we offer of this grand Mignonette is saved from selected spikes grown under glass. Pkt. 50c., ½ oz. \$2.00.

NASTURTIUMS Burnett's Giant Flowering

This grand mixture, which is composed of the very finest giant-flowering varieties, will be found far superior to the older sorts now offered.

GIANT-FLOWERING CLIMBING MIXED. Pkt. 10c., oz. 25c., $\frac{1}{4}$ lb. 75c.

GIANT-FLOWERING DWARF MIXED. Pkt. 10c., oz. 25c., ½ lb. 75c.

PANSY Burnett's Gorgeous Strain

The seed offered by us of this grand mixture contains a most beautiful collection of colors and markings not found in any other and we are confident that for perfection of form, firmness of texture, freedom of bloom and beauty of shades it excels all others. Pkt. 50c., ½ oz. \$3.00.

PANSY Bugnot's Fancy Strain

These beautiful Pansies are highly prized for their singular blotches and delicate markings. The colors run generally in the light shades; flowers extra large, of exquisite beauty. Pkt. 25c., ¼ oz. \$1.50.

PANSY English Prize

Saved from the finest prize collection in the United Kingdom and saved direct from prize plants. Pkt. 50c., ½ oz. \$2.00.

PANSY Scottish Chieftain

This magnificent monster-flowering strain of Pansies is the most remarkable in existence, not only in size, but in the wonderful variety of rich and brilliant colorings. The flowers are splendidly formed and of a beautiful velvety texture. The selection is the result of many years' devoted attention on behalf of this favorite flower by one of the most famous Scottish growers and will be found by all who grow it to surpass all other giant strains in every respect. Pkt. 75c., ½ oz. \$4.00.

Pansy, Scottish Chieftain

Burnett's Double Fringed Petunia

PETUNIA Burnett's Double Fringed

Our strain of Double Petunia is extra large; petals beautifully fringed and can be relied upon to produce a large percentage of double flowers, varying through all the different and most exquisite colors. It is always advisable to prick out the smaller seedlings as they are certain to produce the finest double flowers. Pkt. 50c.

PETUNIA Single Ruffled Giants

Extra large-flowered sort, beautifully ruffled, fluted and fringed. $\,$ Pkt. 50c.

PETUNIA Rosy Morn

Light pink with white throat. A lovely shade, splendid bedding variety. Pkt. 25c., ½ oz. \$\inp 2.00\$.

PENTSTEMONS Wells' Grand Diploma

An entirely new race of Pentstemons that gives the most glorious combinations of colors in scarlet, crimson, pink and white. The plants grow 2½ feet high and the flower spike is 18 inches long, the individual flowers being 2 inches across. Pkt. 25c., large pkt. \$1.00.

PYRETHRUM

Comet-flowered. Roseum hybridum grandiflorum (New)

A selection from the free-blooming perennial Pyrethrums. The flowers are very large, measuring 2 to 3 inches across, either single or semi-double, of the most bizarre form, the petals being rolled and twisted or sometimes tangled together. The colors range from pure white, pale pink and rose to brilliant carmine and blood red; unexcelled for cutting and table decoration. Pkt. 50c.

Salvia

SALVIA Burnett's "Forest Fire"

For effect Forest Fire is unsurpassed. The plant when in full bloom is about 3 feet high. The individual spikes, which are of a brilliant scarlet, measure 6 inches across and are produced in such quantities that they wave gracefully with their weight, giving the plant a glistening appearance. For massing or planting in groups Forest Fire is the most effective. Pkt. 25c., ½ oz. \$2.00.

SALVIA Dwarf " Fireball "

Of the many sorts of Dwarf Salvia now offered Fireball is certainly the finest of all. The plants branch freely, are profuse bloomers, and two weeks earlier than any other variety. They are of bushy habit, and when fully developed are a solid mass of bloom. Color bright velvety scarlet, showing up well above the foliage. Pkt. 15c., ¼ oz. \$1.00.

SALVIA Little Lord Fauntleroy (True)

This is a very dwarf, neat and compact growing variety, 18 inches in height, producing a continuous mass of brilliant scarlet flowers through the whole season. It makes a very handsome border, flowering right down to the ground. Pkt. 25c., ½ oz. \$2.00.

SALVIA Compacta Zurich

Zurich is the dwarfest of the Salvia family, never exceeding 18 inches in height. The plants are robust and compact and commence blooming early in June, making a brilliant display throughout the entire Summer and Autumn. The flowers are of the brightest searlet, produced in great abundance and borne on upright spikes. Pkt. 25c., 5 pkts. \$1.00.

STOCKS

Beauty or "Giant Nice" Winter-Flowering

A magnificent race of recent introduction, with long trusses of extremely double flowers of delightful fragrance. The plants attain a height of about 1½ feet, and are of sturdy growth. For forcing in the greenhouse in Winter they are unexcelled. They are equally good when planted in the garden, coming into bloom a little later than the Ten-Week section and lasting until late in the season.

ALMOND BLOSSOM. White, shaded carmine. Pkt. 25c.

ABUNDANCE. Carmine rose; dwarf. Pkt. 25c. BEAUTY OF NICE. Delicate pink. Pkt. 25c. CRIMSON KING. Rich blood crimson. Pkt. 25c. EMPRESS AUGUSTA VICTORIA. Rich blue. Pkt. 25c.

EMPRESS ELIZABETH. Rich deep rose. Pkt. 25c.

MONT BLANC. Purest white. Pkt. 25c.

QUEEN ALEXANDRA. Beautiful lilac. Pkt. 25c.

SOLEIL DE NICE. Purest sulphur yellow. Pkt. 25c.

STOCK Burnett's Perpetual White

This magnificent Stock has given splendid results wherever grown. The seed is saved from plants grown under glass and is certain to produce over 75 per cent, double flowers. The plants grow from 2 to 2½ feet high and throw up a main flower spike of from 12 to 18 inches long. For forcing purposes this Stock is unrivaled. Pkt. 25c., large pkt. 50c.

Burnett's Perpetual White Stock

Schizanthus Wisetonensis Excelsion

SCHIZANTHUS Wisetonensis "Excelsior"

This may be described as a much larger-flowered strain of Wisetonensis, and with markings and colors of a fancy Pelargonium. All dark crude colors have been carefully kept out. The flowers have white, buff or rose grounds. A grand acquisition and a splendid pot plant. Pkt. 50c.

SCHIZANTHUS Grandiflora Hybrids Rose and Amber Shades

A new strain of pink and rose tints, most heavily blotched gold and bronze, but also contains some very delicate and pleasing self-pinks. Pkt. 50c.

SCHIZANTHUS Wisetonensis Hybrids Hurst's Monarch Strain

One of the finest strains of large-flowered hybrids in existence, embracing a wide range of colors from almost pure white through delicate shades of pink to bright rose and crimson; also exquisite mauve and lavender tints, many beautifully blotched and penciled various darker shades, including bronze and chocolate. Fine, compact habit. Pkt. 50c.

SWEET WILLIAM

NEWPORT PINK. A distinct new color, excellent for bedding and very effective for cutting. Pkt. 25c., 5 pkts. \$1.00.

PINK BEAUTY. Improved fine deep pink color Pkt. 15c.

SCARLET BEAUTY. Rich, deep scarlet; very effective variety. Pkt. 15c.

HOLBORN GLORY. A giant strain of the Auricula Eyed class, with a superb range of colors. Pkt. 10c., 1/4 oz. 50c.

SUNFLOWER New Red Annual (Sutton's)

This new Gaillardia Sunflower is one of the best novelties ever introduced. It grows 6 feet in height and produces a wealth of magnificent flowers; the plant branches freely; the flowers are well shaped with dark centers banded with bright chestnut red, mostly merging to yellow at the tips of the petals. Pkt. 25c.

VERBENA Hybrida Monstrosa Auricula-Eyed (New)

The most beautiful and remarkable variety yet introduced, far surpassing in size and beauty the well-known Mammoth. The flowers measure 1½ inches across, in a great variety of colors; each flower has a very large white eye, making an effective contrast with the brilliant coloring of the main portion of the flower. Pkt. 25c.

VERBENA

Grandiflora "Helen Willmott"

The color is a delightful salmon pink, and the plant itself is of robust growth and very free flowering; in fact, it is indispensable for either inside or outside decoration. Pkt. 50c.

VIOLA Scotch, or Tufted Pansies

These Tufted Pansies are now considered indispensable for beds and borders. Seed sown in Spring commence to bloom in June, and continue to do so until frost.

CORNUTA LUTEA. Yellow. Pkt. 10c., oz. \$2.50. CORNUTA LUTEA SPLENDENS. Orange. Pkt. 10c., oz. \$2.50.

(The above collection of 1 pkt. each color, 50c.)

Verbena Grandiflora Helen Willmott

WALLFLOWER

Kewensis-Winter Flowering

The demand for this new Hybrid Winter-flowering Wallflower is rapidly increasing since its forcing qualities have proved a success. The flowers, borne on long, slender stalks, are extremely fragrant. The colors vary from sulphur yellow to brownish violet on one plant. From seeds sown in July plants will commence flowering in the greenhouse early in Winter. Pkt. 25c.

BURNETT'S GIANT ZINNIAS

These magnificent Zinnias were much admired last season by all who grew them. The flowers are of enormous size, measuring from 4 to 6 inches in diameter. The plants are of strong, luxuriant growth, 2 to 3 feet high.

BURNETT'S RELIABLE ASTERS

The Aster is to-day the most popular of all Summer and Autumn-flowering plants. We take special care to secure the best stocks, frue to name and color, without regard to cost. For best results the ground cannot be too richly prepared. Plants from seed sown in the open ground in May will bloom in September and October. For July and August flowers, sow in March or April, in cold frames or hotbeds.

COSMOS

This is one of our most beautiful and useful Autumn-flowering plants. It is most effective when planted in broad masses, or along background borders against evergreens or fences. From seed started early in frames the plants will be 3 or 4 feet high by July, tossing into the air a perfect cloud of bright-colored, daisy-like flowers, unequaled for their brilliancy of color; fine for cutting. We offer only the choice large-flowering strains. H. A. 5 feet.

MIGNONETTE (Reseda Odorata)

The most popular fragrant annual, prized as much for forcing in Winter as for the Summer garden. The seed should be sown early and the plants as they grow thinned sufficiently to allow them to branch. The beds should be liberally watered during dry weather. Sowings made in April and again in July will keep up a succession from early Summer until frost. H. A. 1 foot.

BURNETT'S RELIABLE PANSIES

The Pansy is undoubtedly the general favorite of all early Spring-flowering plants, and no parden is complete without them. The finest blooms are obtained by sowing the seed in July or August, giving the plants protection during Winter, when they will bloom profusely the following Spring and Summer.

BURNETT'S RELIABLE SWEET PEAS

Sweet Peas should be sown as early in Spring as the ground can be prepared, and are usually grown in double rows, with a wire trellis, or a row of brush between. Manure well, making the drilla about five inches deep and nine or ten inches apart. Sow plentifully, covering about two inches deep, and by degrees, as the vines grow up, fill the trenches with soil, care being taken not to draw the soil on the top of the growing vines. The following list embraces all the most desirable new and distinct large-flowering varieties of recent introduction, which cannot fail to give satisfaction.

The simplicity of this tool, both as a Seeder and as a Wheel Hoe, makes the combination thoroughly practical

Two acres a day can easily be worked with this implement, and when it is done, it will be a better job than several men could have done in the same time with hand Hoes.

New this year. An accurate Drill Seeder and a first-class Single Wheel Hoe at a very low price.

No other cultivating machine is so widely known as the Planet Jr. Combined Horse Hoe and Cultivator, for it is in use throughout the civilized world. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle.

We offer these Wheel Hoes as the highest type of their class. They have a great variety of tools which adapt the implements to a large variety of work, and there is scarcely any garden culture

No. 12 Double Wheel Hoe, Cultivator and Plow Price,\$15.50. Steel Frame Weight, 33 lbs.

All our Wheel Hoe tools are of special pattern, carefully tested by practical men; no others ever offered compare with them. All the steel parts are high carbon steel, oil tempered, finely formed, finished and polished and work to a charm.

The handles are adjustable in height. The frame is steel, convenient and strong with quick change device by which to exchange the tools without removing the nuts.

This attractive implement offers to every one with either field or garden a cheap and effective tool for Wheel Hoe operations.

This tool is identical with No. 11 Wheel Hoe, except that it has one pair plows, one pair hoes, four cultivator teeth and a pair of leaf lifters only, and is sold at a correspondingly less price.

You can do more and better hoeing with it in one day than you can do in three days with a hand Hoe. The No. 17 has a pair of 6-inch hoes, a plow and a set of cultivator teeth, an outfit sufficient for most garden work.

This tool is most useful in small furrows for ma-nure or seeds, and covering the quickly. Price, complete, \$5.00.

THE SHAWNEE TRIPLE LAWN **MOWER**

The Shawnee Mower is the first of its kind. It combines the work of three mowers in one. In its complete form it has a cutting width of over seven feet. As a "sulky" a cutting width of only thirty inches. With cutters raised and under pressure of the "spring" it supersedes the ordinary hay cutting machine on the "rough."

This triple combination possessed by the Shawnee Triple alone is a striking and entirely novel development in lawn mower construction. It has been rigidly tested for six years. It is used by the leading golf clubs and on the finest lawns. Its draft is the easiest of any horse drawn mower in use. The "spring" holds the cutters closely to the ground and is the only known method of stopping the jumping of these cutters along the surface.

TOWNSEND'S GOLF WONDER (Bearing) LAWN MOWER

Townsend's Golf Wonder

Of all places where grass grows, the putting green is the place that calls for the best qualities in a lawn

mower, so severe is the service.

The reader is familiar with the putting green, how to make a first-class one and how to keep it so. It has been our task and pride to produce the mower best adapted to cutting the grass on them, thus adding the

finishing touch.

The Golf Wonder will cut the putting greens of golf courses and other smooth and fine lawns better than any other. It was designed specially for that purpose, others are merely ordinary lawn mowers with perhaps

an extra knife, and in no other way adapted to the work.

It leaves no marks on the green. The weight of the front part of the machine is carried on a wooden roller running at the rear of the cutter bar. The front wheels may be used or not, as preferred. Prices:

THE PENNSYLVANIA LAWN
CLEANER AND
RAKE

Brush for above

The action of three revolving 24-in. wire-tooth rakes is beneficial to the turf. It raises up the low-growing crab grass and other spreading weeds, allowing the lawn mower to cut the seed pods off before they ripen, thus preventing their reappearing the following year. As these weeds and grasses are annuals, it is only necessary to prevent their going to seed for a season to get rid of them. This season a new feature has been added to this machine in the way of a detachable set.

This season a new feature has been add this machine in the way of a detachable set of brushes designed particularly for sweeping worm casts on putting greens, etc. We consider this a grand acquisition and a long-needed want to every lover of a perfect lawn. These brushes are made in one size only, 24-inch.

BURNETT'S REINFORCED HOTBED SASH AND SUNDRIES

Single Sash, Glazed—3x6x1½ in. Thick

Our sash are made from 1½" gulf cypress, glazed with double thick "A" quality glass in lights 10" wide, the top and bottom rails are 4" wide, the side stiles 2½" wide and the bars 1½". The bars are tenoned at both ends and mortised into the rails and the rails into the side stiles; the tenons are steeped in oxide of iron and oil before assembling

before assembling. These sash are much stronger than the ordinary market sash and are tied across the center with a square iron bar. thus making the sash very rigid. They are painted two coats of white lead and oil and the glass is bedded in special green-house putty.

These sash weigh 40 lbs. each, and are made perfect

in every way.
Price, Glazed and Painted, complete. Each \$8.50, doz. \$96.00.

Price, and Painted one coat. Each \$4.00, doz. \$45.00.

Price, Unglazed a n d Unpainted. Each \$3.75, doz. \$42.50.

Sash Double Glazed, Frost-Proof

The general opinion of gardeners who have given Double Glazed Sash a fair trial is that it has given Double Glazed Sash a fair trial is that it has a considerable advantage over single glazed, as it will protect the plants in cold weather without the use of mats and shutters. In climates like New York and vicinity it is, however, necessary to use mats and shutters during the more severe weather. We believe that the bedding of the outer glass in putty is a decided advantage, as it makes the sash leak-tight. Aside from the double glazing these sash are made identically the same as our reinforced Single Glazed Sash. Price, Glazed and Painted. Each \$15.00, doz. \$175.00.

Cypress Slats

Slats are for shading transplanted seedlings. The Slats are for shading transplanted seedlings. The hot sun of August and September is too strong for the seedlings to stand. A week of the slats and they will have thoroughly strengthened up. They are also particularly useful for pansy growing. They are 3 feet wide and 6 long. The evenly spaced strips of cypress are let into the binding cleats and clinched into position by wire nails. They keep their shape, an important point with slats. Price, Painted. Each \$7.50.

Hot Bed Mats

Frost-Proof, Burlap. 76x76 in. square; made of strong burlap cloth. filled with wool waste. Each \$4.00, doz. \$45.00.

Waterproof Duck. Filled same as above, with waterproof duck cotton cloth on one side. Size 76x76 in. Each \$5.00, doz. \$55.00.

Burnett's Garden Frames

All our frames are made of the finest air dried cypress. The sides and ends are held together by heavy wrought iron angle cleats. No nails are used in their construction. They are easy to put up or take down, and are made for regular standard 3x6 feet sash. They are 8" deep at the front, 16" at the back. The rafters are 3x3 inches and

rabbeted for sash to slide on, and grooved to carry off the condensation. They are given two coats of best lead and oil before shipment. Shipped knock down. Two, three and four sash frames kept in stock—others made to order.

Price, without Sash for two Lights, \$16.00.

Price, without Sash for three Lights, \$19.00.

Price, without Sash for four Lights, \$24.00.

Shutters

Shutters do three things: Keep the mats snug in place—protect them from the weather—and do their part toward keeping out the cold.

These shutters are "light to handle and stand the racket." They are 3 by 6 feet and made of \(\frac{5}{8} \)-inch cypress, having tight tongued and grooved joints. The three cross binders on the under side bold the boards together and prevent them warns hold the boards together and prevent them warp-

ing out of shape.
Price, Painted. Each \$8.00, doz. \$90.00
Price, Unpainted. Each \$7.50, doz. \$84.00.

Melon Frames

Try a half dozen of these frames and not only have melons earlier, but melons with the true melon flavor. Starting early with frames gives them a chance to make good strong root growth

to withstand the hot Summer's sun, so the best of the plant's strength can go into the fruit. Made in the same thorough way as our other frames.

Price, Standard Size 23%"x26" with two Lights

of glass. Each \$8.00.

THREE STERLING PREPARATIONS FOR THE GARDENER

"READEANA" THE ROSE BUG EXTERMINATOR

A most effective insect killer that is absolutely harmless to even the most delicate flowers or foliage.

As a killer of insects of every kind from the hardy Rose Bug to the destructive Caterpillar, there is nothing on the market to equal it.

It is very economical to use as it is sent out highly concentrated, and may be diluted with from twenty to sixty parts of water.

Readeana

It is not a chemical but is made up of vegetable matter, thus making it harmless to flowers or foliage. It will put new life into flowers and plants, as it has a brightening effect on the same. Put up in the following size packages:

"ELECTRIC" WORM ERADICATOR

Clears roots of trees, plants, flowers, vegetables, etc., of worms, grubs and insects of every kind. This preparation is designed for use on the roots of plants only, not the foliage. Used as directed by us, it is perfectly harmless to the most delicate roots.

From one to two ounces to each gallon of water brings worms, grubs, etc., to the surface of the ground within a few seconds, where they die immediately.

Much damage is often done to plants and the true reason never known, for the destructive work is being done at the roots where it is not perceptible. An application of "Electric" Worm Eradicator will greatly improve such plants, it being a fertilizer as well as a worm killer.

"HERBICIDE" THE WEED EXTERMINATOR

Kills grass and weeds of every kind on roadways, gutters, tennis courts, etc., by one application. Keeping roads and gutters free from weeds is an endless task when ordinary means are employed, for it is practically impossible to get the roots out, so it is only a matter of a few weeks before new tops are flourishing and it is necessary to go over the ground again.

One application of "Herbicide" when diluted with forty times its bulk of water kills both tops and roots of grass and weeds of every kind, and also prevents the growth of further crops by its sterile effects on the ground again.

Improved Parcel Post Egg Boxes

This Parcel Post Egg Box is so designed and constructed as to afford the greatest possible protection to eggs in transit. The walls of the box are of double thickness throughout and the cellular construction of the box-board cushions provides the most perfect protection against excessive heat or cold.

Eggs shipped by Parcel Post must be wrapped in absorbent material in accordance with Postal Regulations. They are then slipped into the separate cells provided for them and when so packed they are as safe from breakage as any commodity

they are as safe from breakage as any commodity could be.

Carbola is two things in one—a paint and a disinfectant. It is not a whitewash or a kalsomine. It is a finely-powdered mineral pigment, the same as used by many paint makers, combined with a germicide 20 times stronger than pure carbolic acid—but neither poisonous nor carstic. Carbola neither poisonous nor caustic. Carbola dries out a clear snow white—not dark or colorless so there is no chance of mis-

Standard Tree Bands

(Patent Applied For)

Positive Protection

Lasts a Season

Fully Guaranteed

Fully Guaranteed

PROTECTS TREES AND LARGE SHRUBBERY AGAINST ALL CLIMBING WORMS, CATERPILLARS, MOTHS AND INSECTS

These tree bands are made of heavy waterproof paper, with a sticky, repellant material under the umbrella-like canopy. This canopy protects the "gum stickum" from the weather, as well as from dirt, dust and falling leaves.

No climbing caterpillar or insect can pass this sticky material. It catches them and holds them if they set foot upon it. In fact, many turn back before

they get to it.

Attached to the band, on the inside, is a strip of fluffy felt. This felt fills up the depressions in the bark and prevents passage under the band. No cutting away of bark is necessary. The felt fills it up.

These tree bands are guaranteed to be effective for the season, in all weathers and at all temperatures in which worms or insects are active (about 40° Fahr.

to highest summer heat).

Put up in rolls, 25 and 100 foot lengths, flat when boxed, mushrooms when

tacked on tree.

Easily applied. Simply cut length to encircle tree or shrub. Tack on with small tacks or brads, then raise the outer band until it stands out like an umbrella. It will mushroom as shown in cut and so remain. It only takes a moment.

These bands are far cheaper and better than the usual sticky materials applied

direct to bark. Positively cannot injure tree. Bark colored and not unsightly. Can be taken down and discarded at end of season.

This is the most effective and practical method of banding trees yet devised also the cheapest. Has the endorsement of foresters and fruit growers everywhere.

BURNETT BROS.

92 Chambers Street

NEW YORK CITY

A powerful, highly concentrated and soluble plant food for flowers, house plants, shrubbery, trees, gardens, truck lands and lawns.

Promotes luxurious growth; increases the yield; imparts a deep green color to foliage and brilliancy to flowers.

The mostly highly concentrated and properly balanced fertilizer ever compounded.

Many times the strength of ordinary fertilizers. Never before has

such a high analysis been attained.

So strong that a pinch will intensely fertilize a house plant, a one-

pound package 200 square feet.

Standard Flower and Garden Fertilizer will revive those puny, pale, sickly plants, flowers, trees, shrubs, etc. A trial will convince.

Put up in rolls, 25 and 100 foot lengths, flat when boxed, mushrooms when

tacked on tree.

Easily applied. Simply cut length to encircle tree or shrub. Tack on with small tacks or brads, then raise the outer band until it stands out like an umbrella. It will mushroom as shown in cut and so remain. It only takes a moment.

These bands are far cheaper and better than the usual sticky materials applied

direct to bark. Positively cannot injure tree. Bark colored and not unsightly.

Can be taken down and discarded at end of season.

This is the most effective and practical method of banding trees yet devisedalso the cheapest. Has the endorsement of foresters and fruit growers everywhere.

PROTECTS TREES AND LARGE SHRUBBERY AGAINST ALL CLIMBING WORMS, CATERPILLARS, MOTHS AND INSECTS

These tree bands are made of heavy waterproof paper, with a sticky, repellant material under the umbrella-like canopy. This canopy protects the "gum stickum" from the weather, as well as from dirt, dust and falling leaves.

No climbing caterpillar or insect can pass this sticky material. It catches them and holds them if they set foot upon it. In fact, many turn back before

they get to it.

Attached to the band, on the inside, is a strip of fluffy felt. This felt fills up the depressions in the bark and prevents passage under the band. No cutting away of bark is necessary. The felt fills it up.

These tree bands are guaranteed to be effective for the season, in all weathers and at all temperatures in which worms or insects are active (about 40° Fahr.

to highest summer heat).

When The Roses Bloom Again

The rose-bug will come, too, in uncounted millions, to destroy your finest blooms. But you can protect your rose gardens from this pest and save your roses by using

MELROSINE

IT KILLS ROSE-BUGS

The Only Effective Rose-bug Remedy

HOW TO USE MELROSINE

Melrosine is a highly concentrated liquid insecticide, to be used as diluted with from twenty to twenty-five parts of water, sprayed directly upon the affected blooms, with any good spray pump. Good pressure, making a fine mist, is desirable.

Spray on a still day, in bright sunshine, preferably between 11 A.M. and 2 P.M. Begin when the first bugs appear, and spray every day until the successive crops of them emerging from the ground have been destroyed. Cover the whole plant and all the blooms with a light, misty spray. No injury to the blooms or the plants

will result if the spray is fine enough.

If your ground is fully infested with these pests, it may take several years to finally wipe them out, but in the meantime your blooms will be saved in full perfection. Continuous, clean cultivation is an important aid in getting rid of them, and spraying the ground with Melrosine is worth while.

CAUTION.—Do not spray until the first bugs

appear. Do not spray in early morning or late

evening; follow the above directions.

One pint of Melrosine will make 2½ gallons of spray mixture at 1 to 20 dilution, or 3 gallons at 1 to 24 dilution. Use the stronger dilution, 1 to 20, at first.

MELROSINE

keeps indefinitely. It is most inexpensive to use, as it costs less than 25 cents per gallon when diluted for use. No garden can afford to do without this protection, which is an insurance against the ravages of the Rose-Bug, as well as the minor insect pests.
